# Is it a Cemetery or is it a Graveyard?

You have heard burial placed referred to as cemeteries and/or graveyards, so what is the difference between a graveyard and a cemetery? According to Merriam-Webster dictionary a graveyard is a burial ground, often associated with smaller rural churches, as distinct from a larger urban or public cemetery. A cemetery is an area set apart for or containing graves, tombs, or funeral urns, especially one that is not a churchyard; burial ground; graveyard.

## Gravestone Symbols

Have you ever wandered through a cemetery/graveyard and wondered about the meanings of the designs carved on old gravestones? Thousands of different religious and secular symbols and emblems have adorned tombstones through the ages, indicating attitudes towards death and the hereafter, membership in a fraternal or social organization, or an individual's trade, occupation or even ethnic identity. While many of these tombstone symbols have simple interpretations, it is not always easy to determine their meaning and significance. We were not present when these symbols were carved into the stone and cannot claim to know our ancestors' intentions. They may have included a particular symbol for no other reason than because they thought it was pretty.

While we can only speculate what our ancestors were trying to tell us through their choice of tombstone art, these symbols and their interpretations are commonly agreed upon by gravestone scholars.

IHC/HIS	Christian; the first three letters of Jesus' name in Greek
IOOF	Independent Order of Odd Fellows
K of C	Knights of Columbus (Catholic)

## Military Gravestone Symbols

Symbols on government-issued gravestones are often religious symbols. There are other gravestones, though, that depict someone who was in the military, as listed below.

Symbol	Meaning
American flag	Military career; pride in country
Bugles	Military career
Canon	Military service
Eagle	Courage military career
Oak leaves	On military tombs stand for victory or power
Sword	Military career
Swords crossed	Military death in battle
Wreath of laurel	Distinction in military; can be a garland

## Coins on Headstones

Why are there coins left on a headstone? Nowadays, when we talk about leaving coins on graves, we are most likely referring to the graves of soldiers. This practice is not exclusive to military but could be nonmilitary as well. While this is an ancient tradition, it adapted to new needs and practices. So, what do they mean?

Different meanings behind this military practice floated around social media platforms for years. However, they are all connected by a similar practice of respecting those who served in the armed forces.

When you see a coin on the grave of a servicemember, this is a sign that another member of the military paid their respects. According to tradition, there is a meaning behind each type of coin. Here is a simple breakdown:

- **Penny** - A penny at the gravesite means you visited. You have no formal relationship with the deceased, but you honor their service and their family.
- **Nickel** - A nickel signifies if you and the deceased person trained at boot camp together.
- **Dime** - In the case of a dime, you served with the deceased person in some capacity.
- **Quarter** - Finally, a quarter indicates you were with the deceased when he or she died.

## Summary

As you can see, there are more to headstones than first meets the eye. If you look closely at the headstones, you can learn a lot about the person buried below. You can tell if the person was married, was a child, had a specific religion, died in battle, or was a member of a fraternal order.

The next time you visit an old cemetery or graveyard, make sure you pay close attention to the symbols you see. You can learn a lot.

# Symbols

## Anchor

Sometimes an anchor was carved on the gravestones of sailors since it was their last resort in a storm. But more often, the anchor on a gravestone was a symbol of hope. The Bible references an anchor in connection with hope in Hebrews 6: 18-19, “. . . lay hold upon the hope set before us: which hope we have as an anchor of the soul, both sure and steadfast . . .” Those without hope may be like a ship tossed on the sea, their emotions being carried in every direction. The anchor would remind family members visiting the grave to hold on to the hope of seeing their loved one again.

To members of Freemasonry, the anchor represented well-grounded hope, a life well-spent, and eternal tranquility.

## Angel

Angels are some of the most common symbols found in cemeteries. They are carved on gravestones and perch on top as statues. Angels signify that the departed has taken flight into heaven. Some angels are weeping with wings that droop in sadness, denoting sorrow, and lamentation. Others are in flight with a trumpet to proclaim the gospel to all the world. Some are walking upright, ready to escort the deceased into heaven.

Sometimes specific angels can be seen in cemeteries, such as St. George from an 11th-century legend, who rescued a princess from a dragon that required human sacrifices. Another is St. Michael with his drawn sword, engaged in the war in heaven against Lucifer.

In older Jewish cemeteries angels were forbidden, as were depictions of human faces. This was in conformity with one of the ten Commandments, to thwart anyone from worshipping graven images. In later years, angels were allowed on gravestones if their faces were covered by their hands or arms.

## Arches

The Biblical prophet Ezekiel, escorted by a heavenly messenger, was shown a vision of a city that contained a temple with magnificent architecture. The temple included many arches. In fact, there are fifteen references to the arches in this temple in the book of Ezekiel, chapter 40. Arches on a headstone can signify a triumph over death and entry into heaven.

## Book

A book on a gravestone can symbolize the charitable deeds of the departed, as recorded in the book of life. It can also represent the scriptures, as a sign of faith.

Books may also indicate that a scholar or teacher is buried at the gravesite. An open book can signify an early death for someone whose life story was not yet fully written.

## Broken Obelisk

At first, it may appear that a gravestone that is missing the upper half has deteriorated, which is entirely possible since every year more gravestones are lost to decay. But many broken obelisks were formed that way from the time they were made to signify the cutting short of someone's life, particularly the head of a family.

## Butterfly

Butterflies are the symbol of resurrection. Just as caterpillars change into winged creatures that launch into flight, the deceased will rise from the grave, changing into a new being.

## Celic Cross

The Celtic cross can be a religious or a secular symbol. Its arms are of equal length, and it is surrounded by a circle. Sometimes it is referred to as a “sun cross” because of the outer circle. The interlacing bands on Celtic crosses are known as Hiberno-Saxon art which originated in medieval times.

Irish legends indicate that St. Patrick designed the cross to link Pagan symbolism with Christian symbols. Pagans at the time were worshipping the sun, represented by the circle on the Celtic cross. St. Patrick overlaid the circle with a cross, a symbol of Christ’s sacrifice. Others claim that the circle represented a moon goddess, and the cross signified the greater power of Christianity over the pagan goddess.

Nevertheless, if you see a Celtic Cross on your ancestor’s gravestone it may indicate an Irish or British Isles heritage.

## Cherubs

Cherubs became popular in the mid-1700s in New England’s burying grounds. They usually depicted a human-like face with a serious expression, surrounded by wings. Cherubs signify a soul that has gone to heaven.

More modern cherubs usually indicate a child has died, particularly when featured with a lamb.

## Christian Cross

---

The cross or crucifix is a significant symbol to Christians. In early times the Latin cross was referred to as God's mark. It is a symbol of eternal life and resurrection. The three ends may represent the Father, Son, and Holy Ghost of the Trinity or faith, hope, and charity.

## Crown

The crown typically symbolizes Christ, also known as the King of Kings. A finger pointing up through a crown indicates the deceased has gone to heaven through the power of Christ's resurrection.

A crown with a cross in the center is symbolic of the departed soul gaining victory over death through Christ the King.

## Dove

**DOVE**

The dove in flight is a cemetery symbol of the Holy Spirit. This comes from the New Testament references to Jesus Christ's baptism by John the Baptist, "And straightway coming up out of the water, he saw the heavens opened, and the Spirit like a dove descending upon him." (Mark 1:10)

If the dove has an olive branch in its mouth it is a symbol of peace. This symbol comes from the story of Noah in the Old Testament who sent a dove out from the ark following the flood. The dove returned with an olive branch in its beak, from which Noah could know that the floodwaters were receding. Genesis 8:8- "He sent forth a dove from him, to see if the waters were abated from off the face of the ground."

## Draped Flag

**DRAPED  
FLAG**

Drapery of any type symbolizes grief and mourning. When the drapery is a flag, it may signify that the deceased was in the military or died in battle.

## Eastern Stars

The symbol for the Eastern Star is a five-pointed star. The bottom ray of the star points downward, symbolic of the star that shone over the manger of baby Jesus.

The letters FATAL on the rays of the star stand for "Fairest Among Thousands, Altogether Lovely," a biblical quote from the Song of Solomon.

## Finger Pointing Down

A finger pointing downward on a gravestone indicates that God is reaching down for the soul of the deceased.

## Finger Pointing Up

Fingers pointing upward are a quite common cemetery symbol. They indicate that the departed has gone to heaven and beckons grieving loved ones to look up.

## Fleur-de-Lis

The fleur-de-lis or Lily of France is a design that appears on many family crests, coats of arms, and in King Arthur's legends. It is a stylized version of a wild lily and was popularized by French royalty. To the kings of France, the symbol meant perfection, life, and light and it became the royal emblem.

Joan of Arc bore a banner depicting God blessing the fleur-de-lis as she led French troops in a victorious battle against the English in support of Dauphin Charles VII.

In recent times, the fleur-de-lis has been used as an emblem of the Boy Scouts. The photo above has the words "Be Prepared" on a banner beneath the fleur-de-lis, which is the Boy Scout motto. When the founder of Scouting, Baden-Powell, was asked, "Be prepared for what?" he replied, "Why, for any old thing."

If your ancestor's grave has a fleur-de-lis on it there is a good chance that either they were of French lineage or they were a member of the Boy Scouts.

## Flowers on Cross

Flowers on a cross can indicate growth in Christ or immortality.

## Grapes

Grapes on a gravestone symbolize the blood of Christ, God's care, or Jesus' Last Supper.

## Handshake

The origin of the handshake dates to the 4th or 5th century in Greece. It signified a token of peace, as the hand was extended without weapons. The shaking up and down may even have been a means of verifying that there was not a dagger or knife up the other person's sleeve.

In ancient Rome, handshakes were a symbol of loyalty and friendship. Clasped hands were even stamped on Roman coins.

Handshakes also denote that a person's word is their bond, a giving of a sacred trust.

In the case of gravestone symbolism, handshakes can mean a final farewell or eternal bond between the living and the dead. Clasped hands were sometimes meant to portray the link between a married couple. Other times a handshake indicated God reaching out for the deceased to bring them into his presence.

## Kiwanis

Many headstones show the deceased's membership in service organizations. In this case, the departed person was a member of the Kiwanis Club. The organization was founded in August of 1914 in Detroit, Michigan.

The Kiwanis Club has accepted female members since 1987. So, if the stone is older and has a Kiwanis emblem you may be assured that the deceased was male. Though the Kiwanis Club has undergone many changes over the years – including its mission – its current motto is “Serving the Children of the World.”

If your ancestor were a member of the Kiwanis Club or other service organization, you could try contacting them to obtain further information that may help expand your family tree.

## Lamb

Lambs are the most common animal symbol on children's gravestones, representing innocence and purity.

Sheep are instinctive followers too. They tend to follow the sheep in front of them no matter they are going. I once attended a sheep-parade, where cowboys on horses guided thousands of sheep down the street. When one sheep took a wrong turn up a side street, hundreds of sheep followed. Cowboys and their dogs chased them in hot pursuit, trying to get the parade back on the scheduled route. Likewise, small children are naturally submissive and loyal to those who lead them.

To Christians, lambs are also a symbol of Christ, "Behold the lamb of God, which taketh away the sin of the world" (Holy Bible, John 1:29).

## Lily

Lilies are a symbol of innocence, chastity, and purity. They are often associated with Mary, the mother of Jesus, and are used on women's gravestones.

Lilies can also represent innocence being restored to a soul at death.

## Lotus

Lotus are water-plants that close at night and reopen again with the morning sunlight. They symbolize a spiritual rebirth, reawakening, and resurrection.

## Masonic Compass

Members of the Masonic Organization believe in God and in serving their communities. While Masonry is not a religion, adherents act in accordance with high moral standards. In the photo above there are three symbols, the open book, the compass, and the square. The specific position of these objects makes them a recognizable Masonic symbol. The book represents the Word of God, while the square and compass are tools used by architects. The compass reminds Masons to circumscribe their desires and passions within specific limits. The exactness of the straight edges of the square reminds Masons to behave with exact and precise virtue.

If your ancestor has this symbol on their gravestone, you may be able to find records of Masonic meetings at the local Freemason organization. This may allow you to place your ancestor in an exact place during specific years.

## Oak Leaves and Acorns

Oaks are slow growing trees. It can take 40-50 years for an oak tree to go from acorn to full-height and a century before it fills in with thick leaves and branches. Oak trees can live to be two hundred years old. An oak tree at a family homestead may have provided shade for several generations.

Thus, oak trees are gravestone symbols of strength and endurance. Oak branches or acorns on your ancestor's headstone may mean they lived a long life or endured a lengthy illness.

## Odd Fellows Chain

If you notice a chain with three links on your ancestor's gravestone you will know that they were a member of The Independent Order of Odd Fellows. The Independent Order of Odd Fellows is a fraternal organization, founded in 1819 in Baltimore, Maryland. It evolved from the Order of Odd Fellows, founded in England during the 1700s.

Odd Fellows recognize the inevitability of death, so they ask themselves, "How will I spend my life?" With this self-awareness, an Old Fellow then seeks to master their thoughts and actions. They focus on serving others.

The three links of an Odd Fellow chain may sometimes have the letters, "F," "L," and "T" on them. These letters stand for friendship, love, and truth. Odd Fellows seek to know and accept their own strengths in humility, without boasting. They strive to overcome their weaknesses without being critical of the weaknesses of others. They seek to be a friend to all and try to think carefully before acting or speaking.

The Independent Order of Odd Fellows may now be found in more than thirty nations.

## Primrose

The primrose was a Victorian symbol for a silent love or bashfulness. This flower can also symbolize eternal love, hope, sadness, or youthfulness. Primroses had medicinal uses, so it could have indicated healing or the medical occupation of the deceased. Primroses have evenly spaced petals, making them easy to carve so they may have simply been aesthetic.

## Quill

A quill on a gravestone symbolizes a life cut short for someone whose life story was not yet fully written. Quill may also denote that the deceased was a writer or teacher.

## Rose

A rose symbolizes love, perfection, and truthfulness.

## Star of David

The Star of David is a symbol used by Jewish people. The star is six-sided and is made up of two intertwined equilateral triangles. In Hebrew, it is called Magen David or David's shield, representing the protection of the ancient king. The symbol is the center of Israel's flag. When seen on a gravestone, you may be assured that the deceased was Jewish.

## Temple

This photo depicts the temple of The Church of Jesus Christ of Latter-day Saints in Salt Lake City, Utah. Those buried beneath this symbol believe in the eternal nature of the family and everlasting relationships.

## Tree

**TREE**

Tree trunk gravestones may be mistaken for living trees. These lifelike gravestones are called tree trunk stones, tree stump stones, or tree stones.

Tree stones, popular between the 1880's and 1920's, were used by members of the Modern Woodmen of America and the Woodmen of the World. Both organizations are fraternal societies that focus on financial services. They offer insurance, savings, retirement, and estate planning.

Joseph Cullen Root, the founder of Modern Woodmen of America and the Woodmen of the World, selected the name of woodmen after hearing a sermon about God's children being trees in His forest.

## Tree of Life

**TREE OF LIFE**

The tree of life is a cemetery symbol for immortality. The tree ages and moves closer to death, but it also bears the seeds that allow the tree to be reborn, so in a sense it becomes immortal.

It can also be a symbol of strength and growth. Branches lengthen as they reach for the light of the sun. Young tree's roots are shallow but eventually deepen as they age. Like the tree, the deceased may have become stronger by facing the wind, heat, and adversities of life.

Genealogists may identify with the tree of life being a symbol of family. Our leaves and branches may go in many different directions, but we all come from the same roots.

## Trumpet

Trumpets are symbols of victory and resurrection. Sometimes the trumpeters are angels announcing resurrection morning.

## Urn

The urn symbolizes death itself. The Greeks used the urn as a symbol of mourning since it was often used as a repository for ashes of the dead.

From the 1770's to 1820's urns with willow branches carved around them were popular on gravestones in New England's burial grounds. The urns symbolized death and the willows symbolized grief.

## Draped Urn

After the cross, the urn is one of the most used cemetery monuments. The design represents a funeral urn and is thought to symbolize immortality.

Cremation was an early form of preparing the dead for burial. In some periods, especially classical times, it was more common than burial. The shape of the container in which the ashes were placed may have taken the form of a simple box or a marble vase, but no matter what it looked like it was called an "urn," derived from the Latin *aduro*, meaning "to burn."

As burial became a more widespread practice, the urn continued to be closely associated with death. The urn is commonly believed to testify to the death of the body and the dust into which the dead body will change, while the spirit of the departed eternally rests with God.

The cloth draping the urn symbolically guarded the ashes. The shroud-draped urn is believed by some to mean that the soul has departed the shrouded body for its trip to heaven. Others say that the drape signifies the last partition between life and death.

## Veil

In past generations, the deceased was laid out in their own living room or parlor for days prior to burial. Family and friends were invited into the home to pay their respects and comfort the living. The entrance to the room was often draped with a black veil, signifying the passage from life to death.

Anciently, temples also had veiled passages.

A gravestone draped with a veil can also be thought of like a curtain pulled back on a stage. All eyes would be drawn to the deceased as they passed through the veil, just as all eyes fall on the main actor or actor at the start of a play. It symbolizes the importance of everyone to God and to their family.

## Weeping Willow

The drooping branches of weeping willow trees symbolize the drooping spirits and hearts of those who have lost their beloved family member or friend. The weeping willow tree was extremely popular carving on gravestones at the end of the 1700's and early 1800's in Massachusetts among early settlers.

## Service Flag Medallions

### American Legion

The American Legion was founded in Paris, France in March of 1919 by one thousand members of the American Expeditionary Forces. By September of the same year, the American Legion was sanctioned by the US government.

## American Legion Auxiliary

The American Legion Auxiliary is made up of the male and female spouses, grandmothers, mothers, sisters, and direct and adopted female descendants of members of The American Legion.

members, and scholarships

## Military Flag Holder

We have discussed the American Legion flag marker, but if a veteran buried in one of the five cemeteries/graveyards in Farmington Township did not belong to an organization that provides flag markers the Farmington Historical Society and Museum will provide one that denotes a veteran.

## Military Bronze Plaque

The bronze plaque, supplied by the U.S. Government, is a symbol of the veterans that have served in the military. It is usually placed at the foot of the grave, it could be placed on the back of the headstone, and has their service information, name, rank, branch of service and when they served.

## Military Grave Marker

The marble marker, supplied by the U.S. Government, is a symbol for the veterans that have served in the military. The grave marker can contain their birth and death dates as well as their service information, name, rank, branch of service and when they served.

## Military Grave Marker

As you explore the cemeteries/graveyards you may notice some military grave markers are not standing erect but flat with the grave. These markers are also provided by the U.S. Government with the veteran's name, birth, and death dates, when they served, as well as some additional information.

## Chapin Pleasant Hill Cemetery

# Chapter 1

## CHAPIN PLEASANT HILL CEMETERY

In 1854, The Chapin Cemetery was established. It has been noted that the original cemetery was created from land from both what was known back then as the Butler Farm and from the Chapin Farm. Additional land from the Chapin Farm was purchased.

In 1906, Richard Depue Jacobus and his wife Matilda Marie (Brown) purchased the Chapin Farm from Moses B. Chapin. The cemetery grounds had been unattended for several years and it has been noted that it had become a berry patch. Several years later, the graves had been moved.

In 1922, the cemetery was incorporated and new officers were elected:

President	Bill Dikeman
Secretary	Mose Routson
Treasurer	Norton Robbins

with finances being handled by Mr. Routson

Also please note, that it has been recorded that Early burials were reinterred from Old Fort Hill Cemetery in Farmington to Chapin Pleasant Hill Cemetery, among these were to have been Loomis, Butler and others.

There may have been two Farmington women who served as nurses during the Civil War buried at Chapin Pleasant Hill. Eliza Kimball, Nurse ANC Company C 103 Illinois Infantry is buried in an unmarked grave.

No data has been found to substantiate that the second nurse known as Elizabeth Root Webster could be one in the same as Eliza Kimball; so therefore, since we are uncertain about this, we feel she should not be omitted. Elizabeth Root Webster is possibly buried in an unmarked grave in the Northwest corner of the cemetery known as Potter's Field. There are four or five other unmarked graves in this area.

Mr. Jay Jacobus, son of Richard and Matilda cared for this cemetery for seventy years and retired in 1976.

There are as of this date 265 known burials.

## Coal Creek Dunkard Cemetery

### Chapter 2

#### COAL CREEK "DUNKARD" CEMETERY

On December 30, 1859, Benjamin Elliott bequeathed ground to the German Baptist congregation for the purpose of building a church. If for some reason the church was not built, the grounds were to be returned to Mr. Elliott and or his heirs. It was not long before part of the ground had been used for a cemetery.

On June 2, 1894 a quick deed was given by the Elliott heirs to the church members. The cemetery was called Coal Creek "Dunkard" Cemetery.

In 1918, a group of interested men met and raised funds to not only add on but to establish upkeep of the cemetery. At that time, it was being called "The Elliott Coal Creek Cemetery." Why this name was dropped is not known, but for many years now it has been called Coal Creek "Dunkard" Cemetery.

It is kept up by donations and interest from a small fund.

There are as of this date, 344 known burials.

## Hill Cemetery

### Chapter 3

#### HILL CEMETERY

In 1834, during the spring, Ephrain M. Hill and his wife Elizabeth, migrated from White County, Tennessee to a new farm to be known as the Hill Farm. Mr. Hill was a Free Soiler at the time of their move (Free Soilers opposed the Extension of Slavery in the Territories). At this time, Mr. Hill was twenty years of age and Elizabeth was nineteen. They went on to have six sons, and four daughters. Nine of their heirs grew up on this farm. One son is noted to have served in the Union Army during the Civil War.

On October 25, 1890, E.M. Hill, a widower, designated this ground for a cemetery for family and friends. A deed was recorded at the County seat in Lewistown for this burial place.

The Hill Cemetery is located north of the Norris Elevator, about one mile at the top of the hill, on the west side of the road, on what is now known as the Tony Ferro farm.

There are as of this date, seventeen known burials.

## Oak Ridge Cemetery

**Grave of Nathan Tanner August 2, 1834 -  
November 18, 1835  
First Person Buried in Oak Ridge Cemetery**

## Chapter 4

### OAK RIDGE CEMETERY

On November 18, 1835, One Year Old Nathan Tanner is the first known burial in the Two Acres set aside by Joseph Cone, Hiram Palmer, and George W. Little (proprietors of the Town of Farmington) as the town's burying ground. This grave is still under two Oak Trees on a Ridge with a picket fence around it.

To support an ever-growing community there have been many land acquisitions to the cemetery, now dubbed Oak Ridge Cemetery, via multiple purchases and donations. No lots were sold in the cemetery prior to 1860 and the cemetery was deeded to the City of Farmington in 1868.. Since Nathan Tanner's burial, the cemetery now consist of more than forty acres.

From 1835 until 1880, the City had two Cemeteries. In 1879-1880, it was decided to have only one cemetery, so the burials interred at the Fort Stockade on Fort Hill were to be re-interred to Oak Ridge Cemetery. (It is also noted that some of the Stockade burials were re-interred to other Cemeteries in the area).

In 1892, the gray granite Soldiers Monument was erected by the citizens of Farmington and dedicated by George Hunter Woman's Relief Corps to honor our departed heroes. It is also noted in our history that a German Cannon, that was captured by the American forces in France was given to the City of Farmington by Congressman King of Galesburg. This cannon was to have been set up near the Soldier's Monument. To this day, Memorial Day Ceremonies partake at this Monument.

City ordinance 134 passed by the City Council on March 6, 1916, created the board of Cemetery Managers that governs the cemetery. Currently Oak Ridge Cemetery is managed by a board appointed by the Mayor of the City of Farmington.

Entrances to the cemetery honored long time cemetery board members. The North gate was presented by Chester C. Butler in 1917, with Iron fence erected in 1918. the North gate has been modified many times over the years. The West entrance was donated in 1952 by O. K. Morgan, it was his 50+ years of tireless work in plotting the cemetery into 'blocks' and his knowledge in locating and recording forgotten graves and the restoration of their final resting places. The West Gate was remodeled in 1997. (Interesting note, you will find that these two entrances each inscribed with a different date of the cemetery being deeded to the City of Farmington. North Gate says 4/17/1868, and West Gate says 4/17/1898).

In 1925, a mausoleum was built and became cemetery property in 1960. In 2017, the Cemetery Board refurbished the mausoleum.

Over the years, there have been several cash memorials and donations to the cemetery board to be used for upgrades, to beautify, to make improvements and for general upkeep. The first most notable was \$1500 by John W. Young, a resident of the northwest countryside, and one of the largest in its time was from the Ralph Tyler estate, and more recently by the Donald McCord Estate. In 1997 money was raised to pave the roadways. Thank you to all the volunteers over these many years who help maintain the history of Oak Ridge Cemetery.

The cemetery had consisted of Ten Sections which included the original cemetery, and in 2017, the Cemetery acquired Sections 11, 12, and 13 which are dedicated to Fern Helen Taylor. Section 13 is being designated to accommodate cremations.

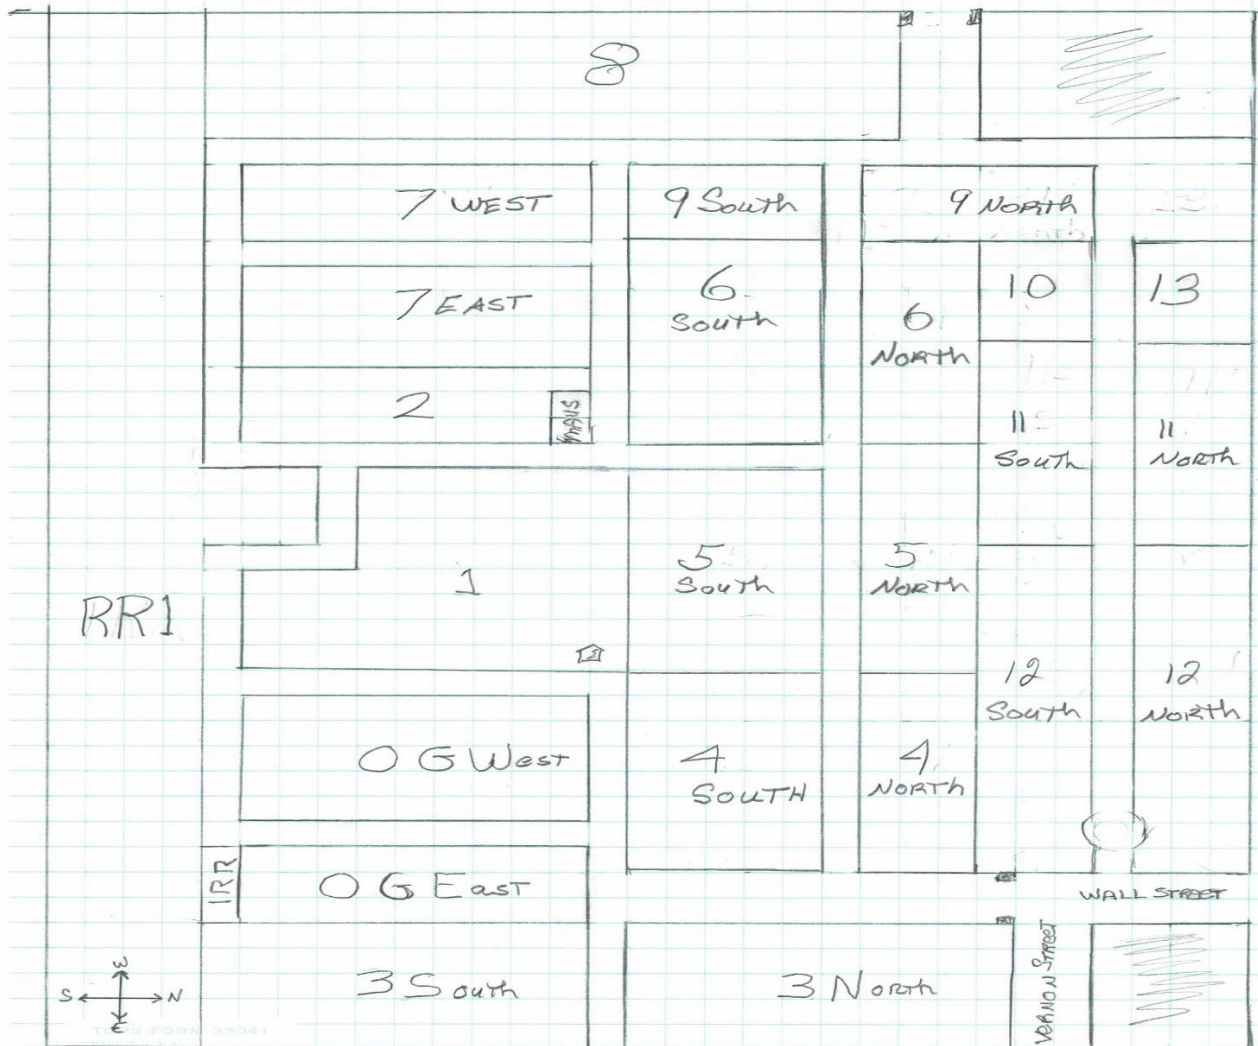

There are as of this date 8,269 known burials which have been identified by section and lot.

You will notice some lot locations are assigned numbers 5000-5018. These lot numbers are used to identify burials in unmarked graves by section as follows:

Lot	Section	Lot	Section	Lot		Section
5000	Cemetery	5001	1	5002		2
5003	3	5004	4	5005		5

Pvt, Anderson,Lewis D, ,,	78	Company I 77th Illinois Infantry Enlist Sep 2, 1862 Mustered out July 10, 1865, 1 July 1839	12 April 1918 calculated birth date Age 78 yrs 9 mos 11 days per death cert.  Age 22 years enlisted at Elmwood, Illinois August 22, 1862 mustered in September 2, 1862 as Private with Co. I. 77th Illinois Infantry mustered out July 10, 1865 at Mobile Alabama. 77th Regiment Illinois was organized at Peoria, Illinois and mustered into Federal service on September 3, 1862. Serving under Maj. Gen. Gordon Granger, the 77th Illinois Volunteers participated in the bloody initial phase of the Vicksburg Campaign, during which several days of futile Union attacks were launched before a protracted siege was made and won.[3] After participating in the first Vicksburg battles, the 77th was part of the group of Union troops marched to the east, where on May 14, 1863, they took part in the Battle of Jackson, Mississippi, leading to the fall of that city.[3] This success was followed the next spring by a catastrophe, however. In April 1864, having marched into Louisiana towards Alexandria, the unit was isolated and crushed in a cavalry support operation at the Battle of Sabine Cross-roads.[3] Some 176 officers and men of the 77th Illinois were killed, wounded, or captured, leaving only 125 members of the regiment fit for duty.[3] The regiment was discharged from service on July 10, 1865, having participated in 16 battles.[3]	Yes	Union Army 1860-1865 Civil War	06S/611 <input type="checkbox"/>

## Chapter 4.1 Oak Ridge Cemetery

### Underground Railroad Supporters

The following list of Farmington interments were instrumental in establishing the underground railroad in Farmington during and after the Civil War for slaves escaping the harsh and sometimes inhumane treatment of the enslaved peoples from the south.

There are many stories passed down thru generations, telling of Safe houses using Quilt Blocks that were hung in their windows to help escaping slaves find their way North to freedom via the underground railroad, these have become known as Freedom Quilt Blocks.

From:  
 History of Fulton County  
 pub. in 1879 by C. C. Chapman  
 Farmington Township.

Luther Birge was born in Litchfield County, Conn., October 28, 1797, the son of Simeon and Elizabeth (Hamblin) Birge; November 5, at midnight, 1836, he landed at Copperas Creek; has lived here in Farmington 42 years; has kept an underground railroad depot, sometimes painting the darkies to disguise them; three different times his name was given to the grand jury for indictment, but they never found a bill. He owns valuable land within the city limits. (page 683, Farmington Township section, submitted by Janine Crandell)

Birth: Mar. 3, 1812  
 Mount Desert  
 Hancock County  
 Maine, USA  
 Death: Mar. 8, 1891

From:  
 History of Fulton County  
 pub. in 1879 by C. C. Chapman  
 Farmington Township

A. B. Thomas was born on Mt. Desert Island, Me., March 12, 1812, the son of Abraham and Jane (Berry), natives of Massachusetts; emigrated to this county in 1837, arriving in June; he was a house and ship-joiner, but for the last 20 years has been a farmer, and very successful, owning at present 956 acres of land, 636 acres of it in this county. In the fall of 1838 he married Mary hart, and they have had 3 children. He and his wife are members of the Congregational Church. Mr. Thomas has accomplished a great deal as conductor on the U. G. R. R., having in charge at one time as many as 14 colored persons. In all he has helped about 200 out of slavery, and wishes the number was 200 times that. He was an Abolitionist when it cost something to be one. As early as 1844 he voted the Abolitionist ticket, voting that year for James G. Birney for President of the United States, the only vote for Birney in Fulton county. Mr. Thomas was in the Seminole war. During his life he has been School Director, Assessor, Road Commissioner, etc. He never drank intoxicating liquor or used tobacco, and has never sued a man or been sued either for debt or crime. ## Providence Chapel Graveyard

## Chapter 5

# PROVIDENCE CHAPEL GRAVEYARD

Also known as the Providence Chapel Church Graveyard and located next to Providence Chapel Church.

The first burial was Martha Pierce in 1837. The ground has been used as a burial place since then, but the records from 1837 until 1892 are not available.

On February 18, 1892, a deed to the graveyard was transferred to the trustees by Henry D. Morton and his wife Maria.

In 1892, the church was remodeled and a basement was created. The dirt from under the church was removed to the ditch west of the old graveyard. Thus this ground was added to the graveyard. At that time, the old fence was repaired and a new one was put around the new addition.

In 1948, the old wooden fence was removed and replaced with a new wire fence on the west, north and east sides. The wooden fence on the south side was reworked from the best boards from the old fence.

There are as of this date 436 known burials.

# Chapter 6.1 Unknown Cemeteries

## Military Internments

The following list of internments served proudly in the various military branches of the United States of America.

There are no known military burials.

## Chapter 7

### Gone But Not Forgotten Cemeteries

#### Rose Cemetery

The Rose Cemetery is situated in the Northwest corner of Farmington Township, North of Middle Grove, and North of the Free Will Baptist Church, on land formerly owned by the Rose Families and other families related to them, namely George Wright, E.R. Lance and William and Clementine Courtney.

A daughter of the Courtney's, Mrs. Jay (Alma Courtney) McCord were the last people to live on this farm. The home they last lived in was moved west of Middle Grove. The cemetery was small, ½ acre and was in a shaded area. It was moved in 1935 to Union (Shinn) Town about two miles north and east of Middle Grove in Knox County. This was done by the Midland Electric Coal Co., which also stripped the farm where the McCord's had lived.

#### Buckman Cemetery

The Buckman Cemetery consisted of two graves on the Reber Buckman farm. The graves were the graves of his father and mother. The bodies may have been removed to Providence Chapel Cemetery. These two stones were last seen about 1939 and no record exists of their disposition.

The cemetery was located about two miles Northeast of Providence Chapel Church in section 19 of Farmington Township.
